

Energetic help in being grounded

It can be that children – even Primary School children – have not really arrived here on earth. They are dreamy, forgetful, or lacking in concentration, and they often look pale and fragile. We say that their soul has not arrived 100% in the physical body. The Angel Aura Essences “Archangel Uriel” (for adults), “Angel Norael” (for babies and infants) and “Angel Hariel” (for children) can support the grounding process very well.

A PRACTICAL EXAMPLE

Situation: Lisa (aged 6) sits at school, dreaming the whole day. She is an intelligent girl, quick to understand but, because of her daydreaming, her results at school leave much to be desired. A therapist, working on the subtle level, notices Lisa’s grounding problems. She recommends that her mother spray the Angel Aura Essence “Angel Hariel” at bedtime. Only after a few weeks do Lisa’s results at school improve noticeably.

Explanation: The Angel Aura Essences mentioned above can create a stronger connection between the body and the earth’s energies, and help the soul to establish itself in the physical body and eventually arrive in life.
